

Accessing your Archived Mail

There are several ways to access your archived emails.

<hr/>	
<h2>Using the Microsoft Outlook Client</h2>	
<p>With a Outlook Client add-in, users can access their email archive directly from within Microsoft Outlook.</p> <ul style="list-style-type: none">• Installing the MS Outlook Add-In• Using the MS Outlook Add-in <hr/>	<hr/>
<h2>Using the Windows Desktop Client</h2>	
<p>MailStore Client is a Windows application that can be installed on any number of user computers (depending on the license purchased). Of all the options for accessing the archive, MailStore Client provides the largest range of functions: Not only can users browse and view their emails but, depending on the privileges assigned to them, set up and execute archiving and exporting tasks.</p> <ul style="list-style-type: none">• Installing the Windows Desktop Client• Using the Windows Desktop Client <hr/>	<hr/>
<h2>Using Web Access from your Desktop Browser</h2>	
<p>Web Access provides access to the archive using an internet browser. This has the advantage that no additional software needs to be installed on the user machines. In addition to browsing and viewing emails, web access also offers access through the folder structure and functions for restoring emails from the archive.</p> <ul style="list-style-type: none">• Using Web Access from your Desktop <hr/>	<hr/>
<h2>Using Web Access from your Mobile Browser</h2>	
<p>With Mobile Web Access you can access the MailStore archive regardless of your location using a smart phone. In addition to browsing the folder structure and viewing archived email, the mobile web access also allows you to search the archive.</p> <ul style="list-style-type: none">• Using Mobile Web Access <hr/>	<hr/>
<h2>Using Other Email Clients</h2>	
<p>With an included integrated IMAP server, that offers you read-only access to the archive for any IMAP capable email client. Especially for alternative email clients (Mozilla Thunderbird) or operating systems (e.g. MacOS or Linux), as well as for mobile platforms such as Android, iPhone or Symbian, this is a very convenient way of accessing the archive.</p> <ul style="list-style-type: none">• Using Integrated IMAP Server <hr/>	<hr/>
